

Call for Papers: AgriTech Conference 2025

We invite researchers, innovators, and practitioners to submit papers for the **AgriTech Conference 2025**, a premier event dedicated to exploring the latest advancements and emerging trends in agricultural technology. This conference aims to bring together experts, thought leaders, and stakeholders from academia, industry, and government to discuss how technology is transforming agriculture and food systems worldwide.

Conference Topics: We welcome submissions on a broad range of topics related to AgriTech, including but not limited to:

- Precision agriculture and smart farming technologies
- Sustainable agricultural practices and technologies
- AgriTech innovation in crop management and protection
- The role of artificial intelligence, IoT, and big data in agriculture
- Automation and robotics in farming
- Food security, climate change, and AgriTech solutions
- Agricultural supply chain management and digital transformation
- Biotechnology and genetic engineering in agriculture
- Impact of AgriTech on rural economies and communities

Important Dates:

- Abstract Submission Deadline: [March 28, 2025]
- Conference Dates: [June 23-24, 2025]

Conference Location: [Mercure Hotel MOA Berlin, Berlin, Germany]

We look forward to receiving your submissions and to a stimulating discussion on the future of AgriTech.
