### Brief Description

Scisynopsis invites participants from around the world to attend the “*International Conference on Plant Science*” on *June 23 - 24, 2025 in Berlin, Germany*. The event will feature keynote speaker presentations, oral talks, poster presentations, and exhibitions. The theme for this year is “*Plant-based Solutions for Global Challenges*”. This congress provides a platform for sharing new developments, ideas, and research results in plant sciences. It is an excellent opportunity for early-career scientists to connect with a diverse group of researchers and decision-makers. The conference series includes grand addresses, keynote addresses, special sessions, workshops, and contributed papers, attracting

delegates, directors, co-directors, professors, scientists, associate professors, PhD students, and researchers. We hope you can find time in your busy schedule to attend the conference, share your ideas, and be part of this successful event. We look forward to seeing you in Berlin!

### **Call for papers**

The International Conference on Plant Science invites researchers, scientists, and professionals to submit abstracts for presentations at the upcoming event in Berlin, Germany, on June 23-24, 2025. The conference will focus on "*Plant-based Solutions for Global Challenges*," covering a range of topics in plant sciences, including plant genetics, biotechnology, ecology, and more. This is an excellent opportunity to showcase cutting-edge research, engage in meaningful discussions, and network with experts in the field. Submit your abstract today to be part of this dynamic scientific exchange. Join us in exploring innovative solutions for global challenges!
